

BOURN & KOCH HDS1600 300

WHY THE BOURN & KOCH HDS1600 300

- ✓ **High Precision Cutting**
Delivers exceptional gear quality with advanced CNC technology and robust structural design.
- ✓ **Flexible Gear Production**
Nine axis CNC control with electronic guides. Ideal for herringbone and double helical, and spur & spline profiles.
- ✓ **Enhanced Productivity**
Faster cycle times with programmable automation features, improving overall throughput.

TECHNICAL SPECIFICATIONS

Max. Diameter: 63"
Max. Pitch: 2 DP
Max. Face: 24"
